

POPs Regulation (EU) No. 2019/1021**Requirements for Environmental Product Compliance for Purchased Parts
of YASKAWA**

YASKAWA is a global company and is committed as part of the "supply chain" to comply with certain laws and regulations. For the goods delivered to us from our suppliers we require information on substances that are restricted by POP regulations.

For this we ask you to confirm with your signature and send it back or upload it to us.

An equivalent, individual manufacturer's declaration about POPs **is also accepted**.

POP Regulation bans or severely restricts the production and use of persistent organic pollutants in the European Union

For more information on POPs see:

<https://echa.europa.eu/list-of-substances-subject-to-pops-regulation>

Please confirm with your legally valid signature

**Our products which we sold (see Annex Page2) and will sell to YASKAWA are compliant with
POPs Regulation**
